✓	<b>Weekly live tutor sessions</b>	Expert tutors to help you

# ACCA-X and partners

The ACCA logo consists of the letters 'ACCA' in white, bold, sans-serif font, centered within a solid red square.

## Think Ahead

ACCA (the Association of Chartered Certified Accountants) is the global body for professional accountants. We aim to offer business-relevant, first-choice qualifications to people of application, ability and ambition around the world who seek a rewarding career in accountancy, finance and management.

Founded in 1904, ACCA has stayed true to its core values of opportunity, diversity, innovation, integrity and accountability. We believe that accountants bring value to economies in all stages of development.

We aim to develop capacity in the profession and encourage the adoption of consistent global standards. Our values are aligned to the needs of employers in all sectors and we ensure that, through our qualifications, we prepare accountants for business. We work to open up the profession to people of all backgrounds and remove barriers to entry, ensuring that our qualifications and their delivery meet the diverse needs of trainee professionals and their employers.

Today, we support our 178,000 members and 455,000 students in 180 countries, helping them to develop successful careers in accounting and business, with the skills needed by employers. We work through a network of 92 offices and centres and more than 8,500 Approved Employers worldwide, who provide high standards of employee learning and development. Through our public interest remit, we promote appropriate regulation of accounting and conduct relevant research to ensure accountancy continues to grow in reputation and influence.

# Introduction to Financial and Management Accounting

FA1  
MA1

## About this course

Our introduction to Financial and Management Accounting is the ideal starting point for future business leaders, accountants and entrepreneurs. You don't need any previous knowledge of accounting. Simply sign up and start your journey.

## What you'll learn

- Business transactions, the banking system and double entry bookkeeping
- Payroll and ledger accounts
- Reconciliation and preparing the trial balance
- Nature and purpose of cost and management accounting
- How to record and classify costs
- How to use spreadsheets.

## Entry requirements

None - this is an introductory course.

## About this course

Intermediate Financial and Management Accounting is part of a programme designed for anyone who's just starting out on their accountancy journey. If you have some basic knowledge of accountancy, business and finance, this is the course for you.

## What you'll learn

- Widely accepted accounting principles and concepts
- How to prepare a trial balance, journals and ledger accounts
- Reconciliation of control accounts and the cashbook
- Role of costing and the classification of costs
- How to use management accounting to support decision making.

## Entry requirements

There are no entry requirements but a basic knowledge of accountancy and business is strongly recommended. If you don't have that, our Introduction course might be a better starting point.

# Diploma in Accounting and Business Courses

You can take the following courses on their own or complete all three to prepare for the Diploma in Accounting and Business from ACCA, the global body for professional accountants.

## Entry requirements

There are no entry requirements for these courses but if you don't have a basic knowledge of accountancy, business and finance, we would strongly recommend taking our free Introduction and Intermediate Financial and Management Accounting courses first.

Now available in over 200 countries.

Check availability in your country at: [www.acca-x.com/help](http://www.acca-x.com/help)

## About this course

If you want to understand how businesses operate effectively, efficiently and ethically, and the critical role that finance professionals play in this, then this is the course for you.

## What you'll learn

On completing this course, you will understand:

- the purpose and types of businesses and more about how the external environment impact them
- business organisational structure, functions and the role of corporate governance
- how accountancy and audit supports effective financial management and communication
- leadership and how people are developed within businesses
- what makes for a high performing team
- the vital role of professional accountants.

Completion of this course will also prepare you for the ACCA exam 'Accountant in Business' (F1/FAB), one of three exams required to achieve the ACCA Diploma in Accounting and Business.

## About this course

Learn management accounting techniques to help you support businesses to plan, control and monitor their performance.

## What you'll learn

On completing this course, you will understand:

- how organisations finance their operations
- how to plan and control cash flows
- how to make the best use of working capital
- the principles of making capital investment decisions
- the nature, source and purpose of management information
- cost accounting techniques
- budgets for planning and control
- comparisons and analysis of variances
- performance measurement and monitoring of business performance.

Completion of this course will also prepare you for the ACCA exam 'Management Accounting' (F2 / FMA), one of three exams required to achieve the ACCA Diploma in Accounting and Business.

## About this course

Learn the underlying concepts behind financial accounting, accounting techniques and the preparation of basic financial statements.

## What you'll learn

On completing this course, you will understand:

- how to record, process and report business transactions
- how to use the trial balance and identify and correct errors
- how to prepare simple consolidated financial statements
- the qualitative characteristics of useful information
- context and purpose of financial reporting
- use of double-entry and accounting systems
- how to prepare basic financial statements for incorporated and unincorporated entities
- interpretation of financial statements.

Completion of this course will also prepare you for the ACCA exam 'Financial Accounting' (FFA / F3), one of three exams required to achieve the ACCA Diploma in Accounting and Business.

# Further information

## Will I get a certificate?

If you'd like a certificate, please register with ACCA as a student. You'll need to pass ACCA's computer-based exams and complete a free online, interactive module called 'Foundations in Professionalism'. This will help you to understand what it means to be a professional and to act ethically at work. More details on ACCA Registration and Exams can be found at: [accaglobal.com/student](https://accaglobal.com/student)
